

DICKINSON REFINERY

Fact Sheet

Refinery Information

Located four miles west of Dickinson, N.D. on approximately 318 acres, the Tesoro Dickinson Refinery is the first refinery in the U.S. to be built in over 30 years. The refinery has a capacity of 20,000 barrels per day (bpd) and primarily processes domestic crude oil from North Dakota delivered by pipeline. The facility manufactures ultra-low sulfur diesel, naphtha and resid, which is marketed to local customers and utilized for further processing in Tesoro's integrated value chain system.

Fast Facts

- ◆ Dickinson full-time employees: Approx. 80
- ◆ Crude oil capacity: 20,000 bpd

Environment

- ◆ The refinery is a state-of-the-art facility utilizing modern emission-control technology.
- ◆ Utilizes recycled water from the City of Dickinson's wastewater treatment plant.

Community Support

- ◆ Has a long-standing history as a good corporate citizen in North Dakota and we are committed to working with our stakeholders to create cleaner, safer, well-educated communities where we operate.
- ◆ Donated \$800,000 in charitable giving to non-profit organizations in the Northern Great Plains in 2016.
